THE PRICE WILL ADVANCE SHARPLY

Of this we have little doubt. The price of cotton has doubled and that of wheat more/doubled in the (than last year. All commodities are on the rise. But these Peach Seed quotations are lower than in any circular we have ever mailed. We cannot now have the seed collected for what we did a short time ago. Consequently,

WHEN OUR PRESENT SUPPLY IS GONE THESE QUOTATIONS WILL HAVE TO GO.

Therefore, we advise you to buy now and save yourself some real money. Take advantage of this last low market.

And remember, the quality of the seed is the finest we know how to obtain. Poor quality seed are costly at any price.

With prices advancing so fast, we cannot hazard a guess at the price of the 1933 crop. We can advise after Sept. 1st about this.
